

# RONAK KUDAL

AI/ML Engineer | Generative AI | RAG | AI Agents

Udaipur, Rajasthan | +91-7627095497 | ronakkudal00@gmail.com

Portfolio | LinkedIn | GitHub

## Summary

AI/ML Engineer with postgraduate training in Artificial Intelligence and Advanced Computing. Hands-on experience building machine learning applications and LLM-powered systems using Python, FastAPI, RAG, LangChain, and LangGraph. Focused on evidence-based retrieval, deterministic evaluation, and practical AI application development.

## Technical Skills

**Programming:** Python, Java, SQL

**AI/ML:** Machine Learning, Deep Learning, NLP, Computer Vision, Feature Engineering, Data Preprocessing, Model Evaluation

**Generative AI:** LLMs, RAG, LangChain, LangGraph, Agentic AI, Semantic Retrieval, Prompt Engineering

**Frameworks/Libraries:** FastAPI, React 19, Streamlit, Pandas, NumPy, Scikit-learn, Matplotlib, OpenCV, Dlib, spaCy, Resemblyzer

**Databases/Tools:** PostgreSQL, Supabase, Cloud Firestore, Git, GitHub, Jupyter Notebook

## Projects

### AI Career Copilot – AI-Powered Career Development Platform

GitHub | Demo

*Python, FastAPI, React 19, LangChain, LangGraph, RAG*

- Built a full-stack career platform with five modules: ATS analysis, interview preparation, mock interviews, personalized learning paths, and job recommendations.
- Developed a RAG-based career assistant using resume context and semantic retrieval, with a LangGraph workflow for skill-gap analysis, resume improvement, and evidence validation.
- Implemented deterministic ATS scoring using weighted skill matching and evidence-based keyword coverage, plus a voice mock-interview system with STAR-based evaluation; generated 20 interview questions and tested the platform with 30+ students.

### SnapClass – Smart AI Attendance System

GitHub | Demo

*Python, Streamlit, OpenCV, Dlib, Resemblyzer, Supabase*

- Built an attendance management application with separate Teacher and Student portals, scheduling, session monitoring, and attendance reporting.
- Implemented face and voice-based identity verification, with role-based authentication and dashboards for attendance tracking, subject management, and session insights.

### SkillGraph – AI Job Market & Layoff Analytics

GitHub | Demo

*Python, Pandas, Scikit-learn, Streamlit, Plotly, Random Forest, K-Means, SMOTE*

- Developed an interactive analytics platform to explore technology layoffs and workforce trends from 2020–2026 using data analysis and visualizations.
- Implemented Random Forest classification for AI-related layoff prediction and K-Means clustering for company workforce patterns, reporting 85.87% accuracy on the evaluated dataset.

## Education

### Centre for Development of Advanced Computing (CDAC), Mumbai

Feb 2026 – Aug 2026

Post Graduate Certification Programme in Artificial Intelligence

83.57%

### C-DAC, ACTS Pune

Feb 2025 – Aug 2025

Post Graduate Diploma in Advanced Computing

78%

### Government Engineering College, Ajmer

2020 – 2024

B.Tech in Computer Science Engineering

78.8%

### Tulsi Amrit Academy, Rajasthan

2020

Class XII – RBSE

79.4%

## Certifications

**AWS Academy:** Generative AI Foundations    **NPTEL:** Data Structures and Algorithms Using Java (Elite + Silver, 81/100)

Prime Batch – Artificial Intelligence & Machine Learning    Alpha Batch – Data Structures and Algorithms with Java

## Achievements & Leadership

- Solved 150+ problems on LeetCode. Project Lead for SnapClass AI. Selected for the Udyam Program.
- Guided and mentored 100+ students on AI/ML careers, projects, interviews, and job preparation; built a network of 3,000+ LinkedIn connections through technical content.
- Managed an online business and WordPress websites; interests include travelling, trekking, cricket, writing, and blogging.
